OPPOSES THE GRAFT

PILOT ROCK RECORD
WOULD SAVE CITY FUNDS.

Thinks Public Money Should Be Used in Building Sidewalks—Opposes the Proposition to Give Tribune City Funds for "Write-Up" of the City and Pictures of the City Officials.

The Pilot Rock Record is bitterly opposed to giving away city funds for advertising purposes and in speaking of the proposition to give \$50 to the Morning Tribune for a write-up of Pilot Rock, says:

"Fakes and fakers as well as grafters will multiply from now on until the end of the Lewis and Clark fair. The history of all similar fairs are pregnant with grafts, pure and simple, and it is not to be wondered at that the Lewis and Clark fair will bring into the state a horde of grafted grafters, as the occasion will prove a fertile field for their occupation."

"Only the other day a man, unknown to all Pilot Rock, blew into town and represented himself as being in the employ of the Pendleton Tribune. He secured the names of several persons to a paper recommending a map, of which none of the signers knew anything, that is to be issued by that paper in a large edition for distribution at the Lewis and Clark fair."

"These names will be used to some purpose in securing some money or concession from some committee or some source that will ensure to the benefit of the publisher or the stranger who is doing the talking for that paper. It plainly bears the earmarks of a graft."

"In addition to this the oily-tongued gentleman, representing said newspaper, succeeded in getting the city council of Pilot Rock to agree to vote out of the funds of the city, \$50 to be given the Pendleton Tribune for a 'write-up' that is to appear in a 'large edition' to be printed some time or other, and distributed at the Lewis and Clark fair."

"In this 'mammoth' edition that is to be printed and circulated at the Lewis and Clark fair the mayor of Pilot Rock and the members of the city council will appear in half-tone cuts, and a sketch of each, painted in glowing terms how they have risen from obscurity to fame."

"Of course, the school children will continue to wade through mud on their way to school, while awaiting the construction of a much-needed sidewalk from the corner of Willow and Main streets to the church or school house on the hill, and the taxpayers will, no doubt, say, 'well done, faithful servants.'"

"In a matter of this kind should not the people of the town be consulted by the members of the city council before voting away the funds of the city to this, that and the other fakes who come along? If the mayor of the city and the members of the city council desire a little cheap notoriety, why do they not pay the bill themselves? In that case there would be no room for complaint. But for the city council of Pilot Rock to throw away \$50 for any such purpose is evidence of stupidity, rank injustice to the people they pretend to represent and an insult to the intelligence of every man in the town."

"Will this graft be allowed to go unchallenged? Will not the people of this town take some action in the matter? It is not money the Tribune wants. It is brains. Of cerebrum the city council of Pilot Rock has none to give away. The money they have can well be spent in the laying of sidewalks for the accommodation and convenience of the citizens of this town."

BUILDING ACTIVITIES.

Among Them a Seven-Room Dwelling on the North Side.

Work on the superstructure of the new Smith-Crawford building, says Superintendenting Architect C. E. Troutman, will begin in earnest next Monday. A carload of lumber is expected before that time, and this will furnish ample building material for the contractor.

"The first story of the West End school," continued Mr. Troutman, "will be completed today."

"A carload of terra cotta will arrive shortly for the Schmidt building, and then the work of completing that structure will be rushed. We have been seriously handicapped all fall by lack of material."

Engineer Butler, of the O. R. & N. Co., will shortly move his family to Pendleton from Pomeroy, and will erect a seven-room dwelling on the North Side. Mr. Troutman is drawing the plans.

Automobile Agency.

A. Kunkel has secured the agency for the Cadillac automobile, and has one machine on exhibit. The Cadillac is one of the smoothest running, most noiseless machines on the market, and Mr. Kunkel has received many favorable comments on these features of the Cadillac from experienced automobile men in the city. There are several prospective purchasers in the city, as many of the professional men are thinking of discarding the horse and buggy, wherever possible.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect pill. 25c at Tallman & Co.'s drug store.

Dr. Hume to Ukiah.

Dr. F. E. Hume and family left yesterday for their future home in Ukiah. The doctor will conduct a pharmacy in the town of Ukiah, and the large country tributary will afford a good field for the practice of his profession. Ukiah is a good town and is constantly growing to meet the demands of the increasing population of the Camas Prairie country, which is generally recognized as the best livestock country in Eastern Oregon. The friends of Dr. and Mrs. Hume wish them every success in their new home.—Pilot Rock Record.

Newbro's Herpicide

The Original Remedy That "Kills the Dandruff Germ"—An Exquisite Hair Dressing.

THE LADIES OBJECT to a lumpy and sticky hair dressing or one that is full of sedentary chemicals intended to dye the hair. The marked preference for a clean and dainty preparation, particularly one that overcomes excessive oiliness and leaves the hair light and fluffy, is reflected in the enormous sale of Newbro's Herpicide. Discriminating ladies become enthusiastic over its refreshing quality and exquisite fragrance.

A WOMAN TO BE PRETTY must have pretty hair. The features may be quite plain or even homely, yet if the head is crowned with an abundance of beautiful hair, attractiveness will not be lacking. The poet says: "Fair tresses man's imperial race ensnare." Herpicide gives the hair a charming distinctiveness that is characteristic of no other hair dressing.

A Healthy Hair.

DISEASED HAIR A MISFORTUNE. Unsightly or diseased hair is a misfortune in more ways than one. There is the actual injury to the hair follicles, and the consequent loss or thinning of the hair; this may cause diseases that sometimes follow a removal or thinning of nature's protection to the head. A diseased condition of the hair affects a woman's disposition to a marked degree.

If the hair is dull, brittle and lifeless, owing to the presence of a microbe growth, the effect is to darken one's spirit and cause a loss of interest in personal appearance. The use of Newbro's Herpicide overcomes the ravages of the dandruff microbe, which the natural beauty and abundance of the hair will return as nature intended. Almost marvelous results follow the use of Herpicide. Gentlemen find Newbro's Herpicide in use at all important barber shops.

STOPS ITCHING OF THE SCALP IMMEDIATELY. Well Known Physician From Los Angeles Writes: Newbro's Herpicide has given great satisfaction. It has benefited my wife a great deal and she instructs me to say that it is the very best thing ever used. (Signed.) O. D. FITZGERALD, M. D., Los Angeles, Cal.

Herpicide Did Wonders. I have used your Herpicide and it has done wonders for me. I would not be without it, and recommend it to every one. (Signed.) MINNIE SWIFT, Hackersfield, Cal.
